Clouds
Lie on your back and watch the clouds go by. Can you draw some in the space below?

HANDY TIP
Hills are a perfect place to watch clouds from.

FIELD ACTIVITY
Sketch other things that you can see in the sky or on the horizon.

What do the clouds look like? Circle the words below.

- high in the sky
- dark and gloomy
- patchy
- blanket
- white and fluffy
- wispy
- layered
- low down

Do any of the clouds look like objects or people? Write down or draw what you can see.
Look Out for Leaves

Go on a leaf hunt! You can preserve the leaves you find with white glue and tape them here. You could group them by shape or color.

FIELD ACTIVITY
Research what plant or tree the leaves came from and write in labels for them.

What’s the Weather Like?
Weather affects us every day—what we do, what we wear, even our mood.

Use one word to describe how the weather sounds:

..........................................................................

Use two words for how the weather looks:

....................................  ....................................

Use three words for how it makes you feel:

..................................................................

Can you turn your answers into a poem?
..................................................................
..................................................................
..................................................................
..................................................................
..................................................................
..................................................................

Bear Collage

Glue or tape on natural things from the world around you, such as flowers, twigs, or leaves, to create a bear. Dab on glue to make the bear’s nose shiny. What could you use for fur?
