

SHARK POP-UP

by Robert Sabuda & Matthew Reinhart

STEP 1: Print out the shark card and pop-up pieces. Then color them in with crayons, markers, or colored pencils. Do not color the tabs on the pop-up pieces or the glue spots on the card.

STEP 2: Using a ruler as a guide, press the rounded end of a paper clip along the dotted line down the center of the card. Then do the same along the dotted lines on all three pop-up pieces.

STEP 3: Cut out the card and pop-up pieces along the heavy black outside lines. Take your time around the shark's teeth!

STEP 4: Fold the card in half along the scored center fold line. Crease the fold. Then open up the card again and set it aside.

STEP 5: Fold the shark's face piece along the snout line, folding the sides back away from you. Crease the fold, then release it. Do the same with the other two face fold lines and with tabs A, B, and C.

STEP 6: Apply a small amount of glue to tab A. Fold the face piece along the snout line, with tab A tucked down, so that tab A is now glued to the left inside of the face. Press firmly and allow to dry.

STEP 7: Fold the lower jaw pop-up piece in half, folding the sides back away from you, along the center fold line. Then fold tabs D and E away from you. Crease the folds, then release them.

STEP 8: Fold the fin pop-up piece along the center fold line, folding the sides back away from you. Then fold the two fin tabs *toward* you. Crease the folds, then release them.

STEP 9: Turn the fin piece over so that no dotted lines are visible. Apply small amounts of glue to the two fin tabs. Match up the fin tabs to the glue spots on the card, so that the fin is lying completely flat. Press firmly and allow to dry.

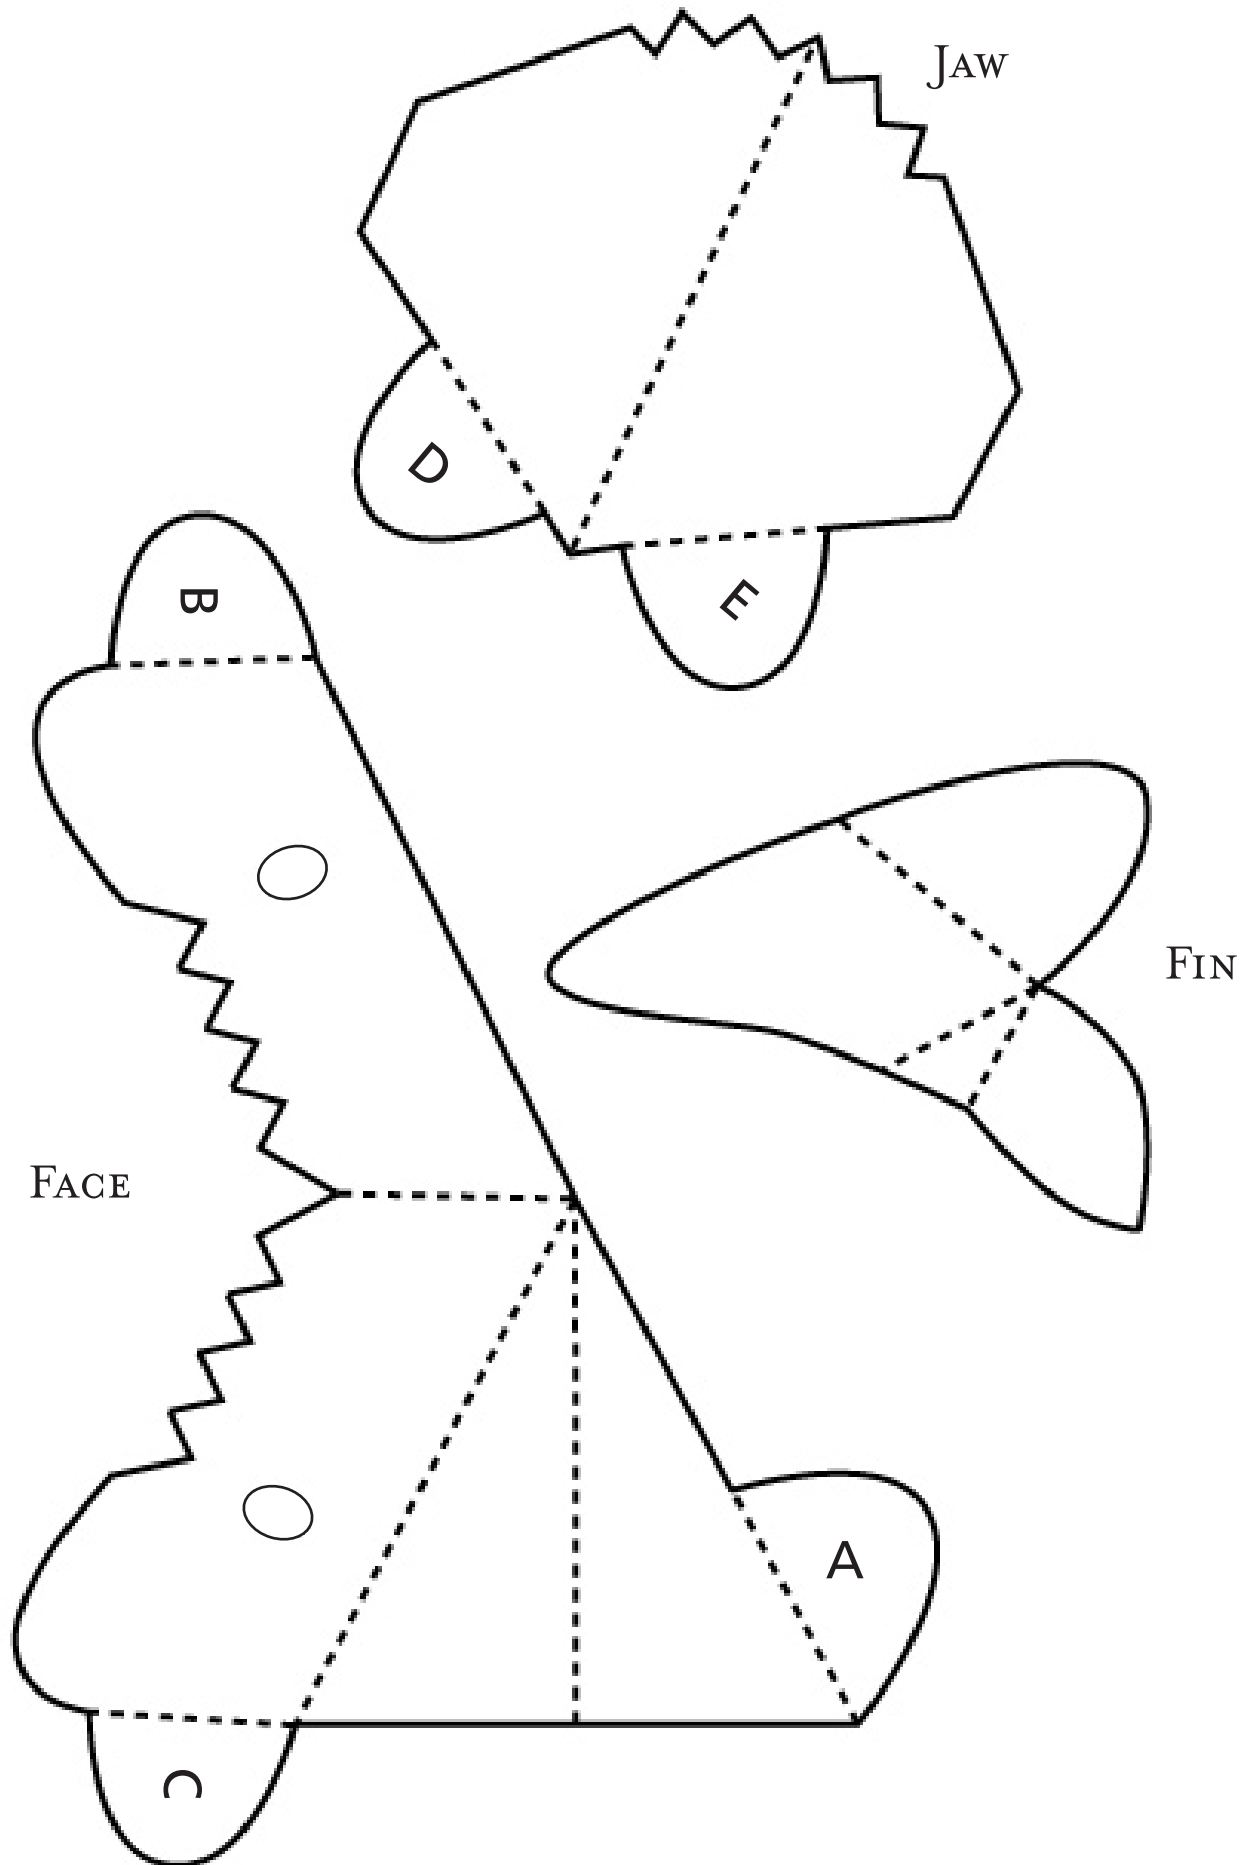

STEP 10: Fold the face piece flat along the center forehead line. Apply a small amount of glue to tab B. Match up tab B to glue spot B on the card and press firmly. Allow to dry.

STEP 11: Apply a small amount of glue to tab C. Close the card (being sure that the fin folds along its creased center fold line) and press firmly. Allow to dry.

STEP 12: Open the card. Apply small amounts of glue to tabs D and E on the jaw piece. Lay the jaw piece flat onto the card, with the tabs tucked under, matching up tabs D and E to glue spots D and E on the card. Press firmly and allow to dry. Your pop-up shark is hungry and ready for lunch!

This pop-up design by Robert Sabuda and Matthew Reinhart is for you and your friends to enjoy. Feel free to make additional copies and pass them along.
