GARGANTIS

CAN YOU DRAW GARGANTIS?

See if you can draw the mythical creature using the description below:

“A vast creature—with the head of an anglerfish and dozens of fins along its sinewy body—is ‘swimming’ in the sky over Eerie-on-Sea. It has two huge flippers, a low-slung mouth filled with tusks, and gigantic ichthyosaur eyes. The creature is wreathed in storm clouds and lightning that seem to pour off its fins.”

CAN YOU CRACK THE EERIE SCRIPT?

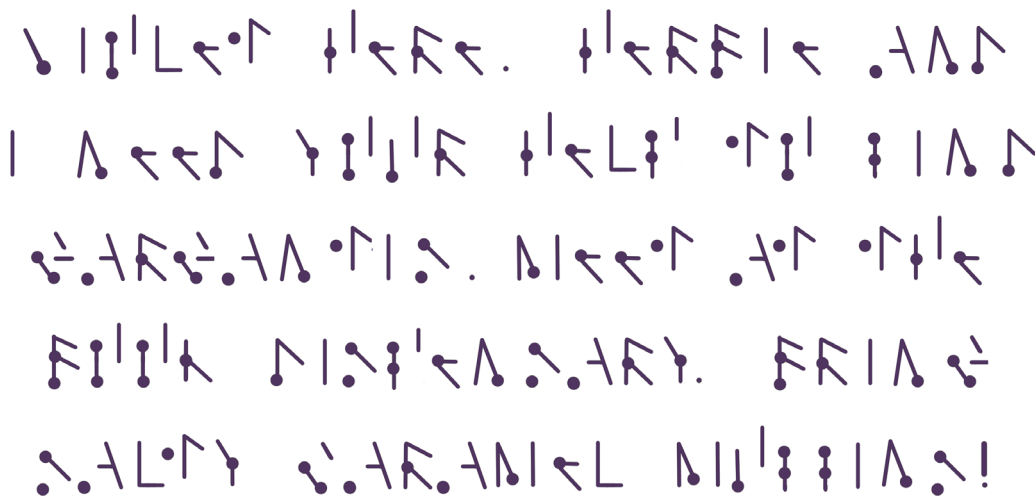

Eerie Script is an ancient lost code. It is said that you can crack it by drawing lines from the dots in a particular way.

Using the guide below, decode the secret message.

- The lightning bolt on each compass tells you the direction in which to draw the lines. For example, if the bolt is pointing northeast, you draw a northeasterly line from each dot to form the letters.

- Using the same compass, fill in the lines, crack the code, and answer the questions below.

QUESTIONS

- Who wrote this message?
- What do they need your help to find?
- Where should you meet them?
- What do you need to take with you?

Violet here. Herbie and I need your help to find Gargantis. Meet at the Book Dispensary. Bring salty caramel muffins!
