LEARN THE PARTS OF THE BOAT

Before we set sail, let's learn our way around Old Wood Boat. Read the descriptions below and write the word on each line that best identifies that part of the boat.

HC: 978-1-5362-1658-5

bow—The forward part of a boat.

deck—The structures forming the horizontal surfaces of a boat; they also form a roof covering the hull.

hull—The body of a boat above and below the water.

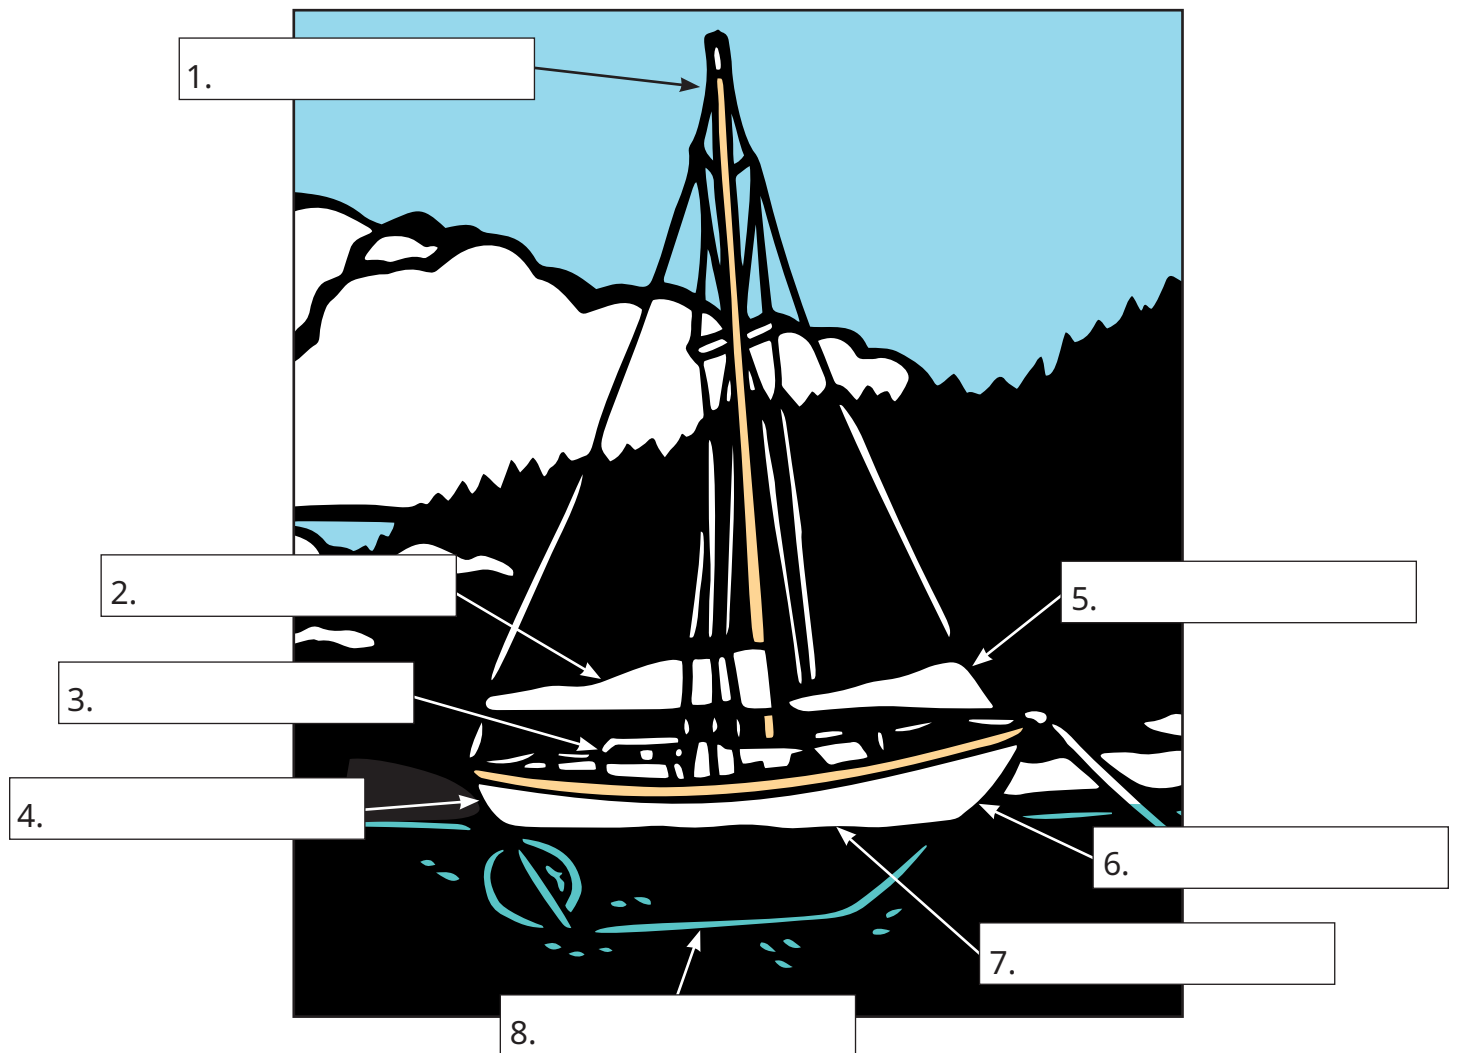

jib—The forward sail fixed to the bow.

keel—The strong, heavy backbone of the boat, running from bow to stern along the bottom. It helps balance the boat and keeps the boat from tipping over too far.

mainsail—The sail attached to the mast.

mast—A vertical pole that supports sails and rigging.

stern—The back part of a boat.

ANSWERS: 1. Mast, 2. Mainsail, 3. Deck, 4. Hull, 5. Jib, 6. Stern, 7. Keel, 8. Bow

COLORING SHEET

We've pulled up the anchor, hoisted the mainsail and jib, and off we go. But where to? Draw a map below of where you want Old Wood Boat to sail to, whether it's an island, a seaside town, or a hidden cove. What sea creatures might you spot on the way?

Use crayons, markers, or pencils to color in your scene.

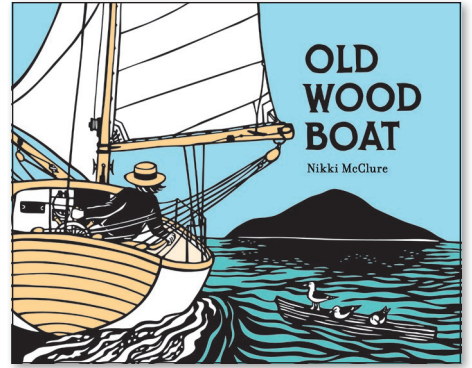

HC: 978-1-5362-1658-5

MAZE

An island ahead! Land ho! Help Old Wood Boat navigate through the maze to her destination.
