Also available as an e-book

TACKO FALL TO NEW HEIGHTS

- Have students measure how tall they are, then calculate the difference in height between them and Tacko!
- What do your students imagine it was like for Tacko to say goodbye to his family, move to a new country, and learn an entirely new language? Would they be willing to do the same thing to chase their dreams?
- Tacko writes that with hard work and belief in himself, he was able to achieve his dream of playing in the NBA. Ask students to write down their goals and how they can work toward accomplishing them.
