# READ AND WONDER

Combining Science and Story

- Merge compelling stories with informational text
- Align to Common Core State Standards
- Leveled for Guided Reading
- Include indexes for easy reference

Includes the Text Exemplar title *Bat Loves the Night*

Candlewick Press

[www.candlewick.com](http://www.candlewick.com)

**READ AND WONDER BOOKS** tell stories that take children on adventures while feeding their curiosity with intriguing facts about the subject at hand. Covering subjects as diverse as the life cycle of frogs, the night habits of bats, the endearing qualities of farmyard pigs, and the thrilling undersea world of sharks, these titles fit seamlessly into the elementary curriculum.

## COMMON CORE

*Bat Loves the Night* is cited as a CCSS Text Exemplar for informational text grades 2–3. All of the titles in the Read and Wonder series follow the same format—combining story with elements of nonfiction—meeting CCSS standards for reading and understanding both literature and informational text.

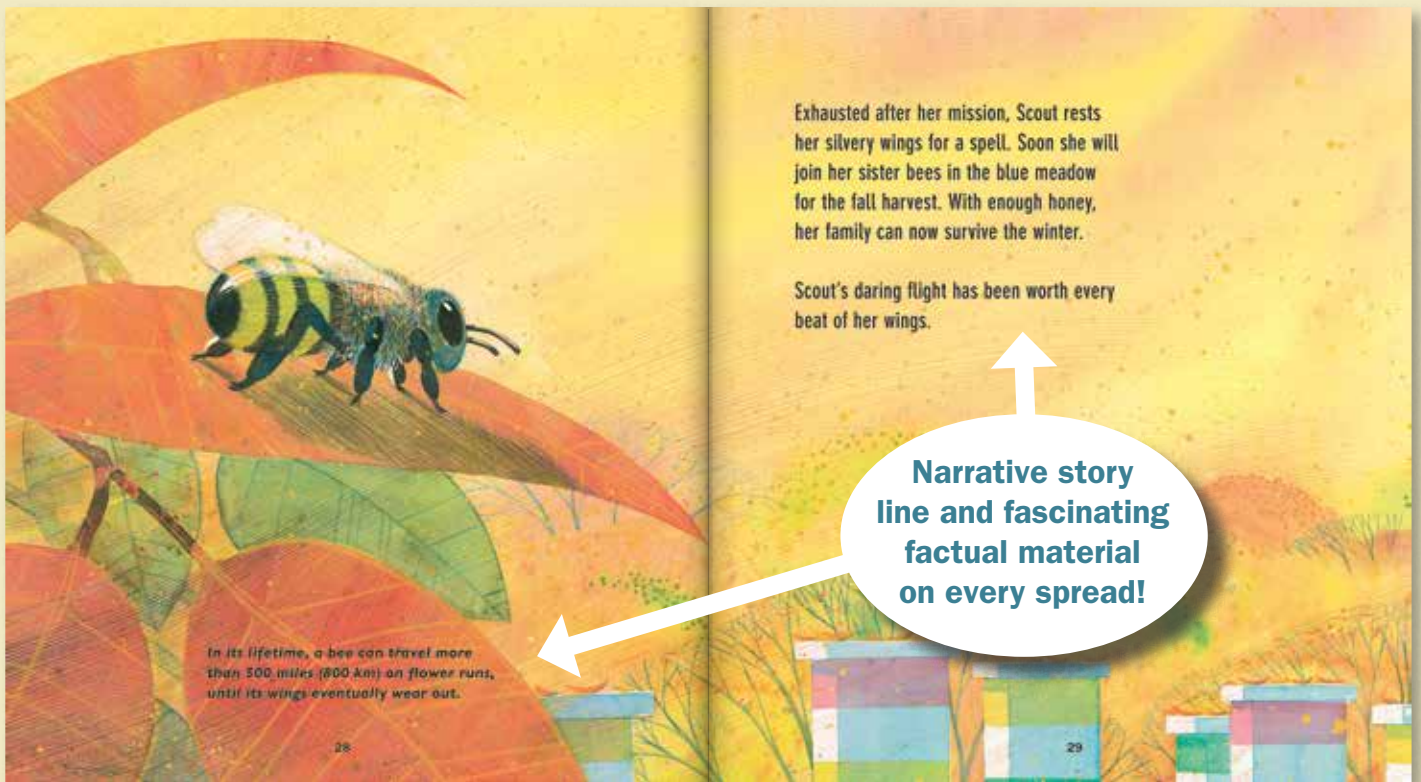

## LANGUAGE ARTS

- reading comprehension for expository text
- understand features of nonfiction writing
- develop research skills

## LIFE SCIENCE

- life cycle
- characteristics of organisms
- relationships of animals to their environment

Exhausted after her mission, Scout rests her silvery wings for a spell. Soon she will join her sister bees in the blue meadow for the fall harvest. With enough honey, her family can now survive the winter.

Scout's daring flight has been worth every beat of her wings.

**Narrative story line and fascinating factual material on every spread!**

In its lifetime, a bee can travel more than 500 miles (800 km) on flower runs, until its wings eventually wear out.
